TAKE YOUR PET WITH YOU
EMERGENCY EVACUATION PLANNING GUIDE
FOR PET OWNERS
Plan
Take Your Pet With You

Disasters of all types including natural and manmade force families to flee their homes seeking safety, only to find they cannot return for days or weeks. Even disasters like gas leaks and minor flooding can separate you from your pet. To prevent situations where you are separated from your pet during times of emergencies: Take Your Pet with You

Create a family Emergency and Evacuation Plan including your pets. Practice the plan with your family prior to a disaster. This will help you successfully shelter in place or evacuate and maintain the safety of your family and your pets.

Prepare
Pet Evacuation Kit

Be prepared for a disaster with a Pet Evacuation Kit including a Pet Evacuation Checklist and supplies.

Assemble the kit well in advance of any emergency and store in an easy-to-carry, waterproof container. Review your plans and kits regularly to ensure that the plans are current and food and medicine are fresh.

Pet Evacuation ✓ List
