Terrebonne Parish

Hazard Mitigation Plan Update 2020

Public Meeting

The Terrebonne Parish Consolidated Government is updating the parish's Hazard Mitigation Plan. The purpose of the plan update is to identify and pursue preventative measures that will reduce future damages from natural hazards. The plan is required by FEMA to be updated every five years. The public is encouraged to participate in any of the meetings, but at least two meetings will be in the evening to be more convenient.

The first evening meeting will be held at Bayou Terrebonne Waterlife Museum November 12th from 6-8 for anyone interested in participating. We will review the existing plan and discuss the progress and events over the last five years. The full process will include Assessing the Hazard; Risk Assessment; Assessing the Problems; Setting Goals; Reviewing Possible Activities; and Drafting the Action Plan.

The public is encouraged to attend these meetings and provide input and perspective to the planning process. Please visit the Parish website for more information and resources. A copy of the current Hazard Mitigation Plan and all other materials that will be made available on the website will also be available in print at 8026 Main Street on the Second Floor for public review.

November 12, 2019
Bayou Terrebonne Waterlife Museum
7910 Park Avenue
Houma, Louisiana
6-8 pm

Please direct questions about the meeting or process to Jennifer Gerbasi at jgerbasi@tpcg.org or 985-873-6565. If you have any special needs, please call with 72 hours notice so that we can provide whatever support is necessary. Call (985) 580-7200 for directions or museum information.
