To whom it may concern,

The Parish has recently become aware that the address on the RFQ for delivery of the submissions is incorrect. The mailing address is **8026 Main Street** rather than 8024 Main Street. Several submissions have already been received; and it may be that all are received that were sent. However, as submissions may have been sent to the wrong address due to the typographical error and it would be late, we are extending the deadline to **April 18th, 2019 at 2:00**.

We apologize for any inconvenience.

Any submissions received today will be accepted unless the submitting entity sends a second set. The second set would be considered a replacement and the first archived without review.

The new date for submissions will be **April 18th, 2019 at 2:00 PM**.

Thank you.

Terrebonne Parish Consolidated Government
Recovery Assistance and Mitigation Planning
