1. Page 6, Section 3.1 of the RFP states that a digital copy sample plan shall be submitted with the Proposal as evidence of past experience. Should this be a sample prepared by the submitting firm or can it be a sample prepared by the submitting firm's assigned staff?

Response: The sample may be prepared by the firm's assigned staff rather than by the firm itself. However, greater points will be awarded for a team that has worked together in the past than a team that has been assembled for the purposes of responding to this RFP with little or no experience working together on this .
