Request for Statements of Qualifications Second Posting

The Terrebonne Parish Consolidated Government Parish is accepting Statement of Qualifications for engineering services to design a Justice Complex in accordance with federal disaster relief program requirements. This is the second posting due to the rejection of all earlier submissions for the original request for SOQ. The type of project(s) will include the design of a multistory facility on an existing urban lot with courts, a safe room, holding cells, parking, secure document storage; offices for Clerk of Court functions, law enforcement and attorneys.; and ancillary space. The TPCG through this RFQ will be identifying one or more engineering and architectural firms deemed eligible to perform work within Terrebonne Parish. The selected firm(s) will be assigned based on the strength of the firm's qualifications in design and construction of courthouses, holding cells, safe rooms, and secure facilities.

The procedures for the selection of this firm will be in accordance with the procurement requirements of the Federal Emergency Management Agency (FEMA) and the Terrebonne Parish Consolidated Government. All responses received will be evaluated in accordance with the selection criteria and corresponding point system, which is identified in the request for statements of qualifications. That package also identifies the scope of services to be performed by the selected firm. The Parish will award the contract/s to the firm or firms obtaining the highest score in the evaluation process.
