Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

3. The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the [contractor's](#) legal duty to furnish information.
4. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
5. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

6. 7. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, that if the applicant so participating is a state or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.”

5.46 Performance and Payment Bond

PERFORMANCE/PAYMENT BOND

In order to insure the faithful performance of each and every condition, stipulation and requirement of the Contract and to indemnify and save harmless the Owner from any and all damages, either directly or indirectly arising out of any failure to perform same, the successful Bidder to whom the Contract is awarded, shall furnish a Performance/Payment Bond in an amount of at least equal to one hundred percent (100%) of the Contract Price. The Contract shall not be in force or binding upon the Owner until such satisfactory Bonds has been provided. The Surety Company shall be approved by the Owner and the cost of the Bonds shall be paid for by the Contractor unless otherwise stipulated.

QUALIFICATIONS OF SURETY COMPANIES

In order to be acceptable to the Owner, a surety company issuing one hundred percent (100%) Performance/Payment Bonds, called for in these Specifications, shall meet and comply with the following minimum standards:

- A. Surety must be currently licensed to do business in the State of Louisiana and shall comply with the provisions of Louisiana State Law.
- B. No Surety Company will be accepted as a bondsman who has no permanent agent or representative in the State upon whom notices referred to in these Specifications may be served. Services of said notice on said agent or representative in the State shall be equal to service of notice on the President of the Surety Company, or such other officer as may be concerned.

C.To be acceptable as Surety on a Contract with the Parish of Terrebonne, the company must hold Certificate of Authority from the United States Treasury Department as acceptable surety on Federal Bonds. This provision does not limit penal sum of bonds which surety companies may execute. Net retention, however, cannot exceed underwriting limitation placed on surety by Treasury Department and excess risk must be protected by Certificate of Re-Insurance or Co-Insurance furnished to Owner within forty-five (45) days of date of execution of Contract.

- D. Surety bond shall be written by a surety or insurance company currently on the U.S. Department of the Treasury Financial Management Service list of approved bonding companies which is published annually in the Federal Register, or by a Louisiana domiciled insurance company with at least an A- rating in the latest printing of the A.M. Best's Key Rating Guide, and a Class 8 or better General Policy Holders Rating all in accordance to the latest A.M. Best Company Rating, to write individual bonds up to ten percent (10%) of policy-holder's surplus as shown in the A.M. Best's Key Rating Guide.
- E. No surety or insurance company shall write a bond which is in excess of the amount indicated as approved by the U.S. Department of the Treasury Financial Management Service list or by a Louisiana domiciled insurance company with an A- rating by A.M. Best, up to a limit of ten percent (10%) of policyholder's surplus as shown by A.M. Best in the State of Louisiana.
- F. Surety shall have been in business and have a record of successful continuous operations for at least five (5) years.
- G. Attorneys-in-fact who sign Performance/Payment Bonds must file with such bond a certified copy of their power of attorney to sign such bond.
- H. Agents of surety companies must list their name, address, and telephone number on all bonds.
- I. Bonds shall be countersigned by a person who is contracted with the surety company as an agent, who is licensed as an insurance agent in Louisiana, and who resides in the State of Louisiana.
- J. The life of the bonds shall extend twelve (12) months beyond the date of final payment and shall contain a waiver of alteration to the terms of the Contract, extensions of time, and/or forbearance on the part of the Owner, all to assure prompt removal and replacement of all defective

material, equipment, components thereof, workmanship, etc. and to assure payment of any damage to property of Owner or others as a result of such defective materials, equipment, workmanship, etc.

- K. Should the Contractor's Surety, even though approved and accepted by the Owner, subsequently remove its agency or representative from the State or become insolvent, bankrupt, or otherwise fail, the Contractor shall furnish a new Bond in another company approved by the Owner, at no cost to the Owner. The new Bond shall be executed under the same terms and conditions as the original Bond.
- L. The Contractor's bondsman shall obligate himself to all the terms and covenants of these Specifications and of contracts covering the Work executed hereunder. The Owner reserves the right to do extra Work or make changes by altering, adding to or deducting from the Work under the conditions and in the manner herein before described without notice to the Contractor's surety and without in any manner affecting the liability of bondsman or releasing him from any of his obligations hereunder.
- M. The Bond shall also secure for the Owner the faithful performance of the Contract in strict accordance with Drawings and Specifications. It shall protect the Owner against all lien laws of the State and shall provide for payment of reasonable attorney's fees for enforcement of Contract and institution or concursus proceedings, if such proceedings become necessary. Likewise, it shall provide for all additional expenses of the Architect or Engineer occurring through failure of the Contractor to perform.
- N. The surety of the Contractor shall be and does hereby declare and acknowledge himself by acceptance to be bound to the Owner as a guarantor, jointly and in solido with the Contractor, for fulfillment of terms as set forth in these Specifications.
