RE: ADDENDA No. 1 – #24-MOSQ-09 Mosquito Control Program

TO ALL PROPOSERS:

This letter shall be considered Addenda # 1 for the above referenced Request for Proposals.

The below paragraph found on page 26 in the RFP has been changed to read as:

- **Mosquito Larvae:**
Identify Sites: Inspectors must locate mosquito breeding sites in Terrebonne Parish and GPS map breeding sites using any updated technology that will accomplish the required task. Any additional sites suggested by or identified by the TPCG will also be mapped and monitored. Resulting data will be used in subsequent larviciding and adulticiding programs. In addition, Contractor will notify TPCG of mosquito breeding sites such as clogged ditches, which may need repair or other source reduction interventions.

Please acknowledge all addendums received on page 44 of the proposal packet.

If you should have any questions concerning this matter, please contact me at (985) 873-6821.

Sincerely,

A handwritten signature in blue ink that reads "Sharon Ellis".
