## **Addendum #2**

Terrebonne Parish Consolidated Government (TPCG)  
8026 W. Main St.  
Houma, LA 70360

TPCG System Wide Line Repairs

Addendum #2

---

This Addendum forms part of the Bid Documents and modifies and clarifies the original Bidding/Proposal Documents for the project as noted below. Acknowledge receipt of this Addendum in the space provided on the Proposal Form. Failure to do so may subject the Bidder to disqualification. The bidder is responsible for disseminating this Addendum to all subcontractors concerned.

### **Specification & Contract Document Revisions:**

- Replace “Louisiana Uniform Public Work Bid Form Unit Price Form” with attached revised Louisiana Uniform Public Work Bid Form Unit Price Form.

### **Pre-Bid Questions**

- 1. Q: Will crews be able to work in different areas or different feeders during the process of this project?**

A: Multiple crews will be allowed to work multiple feeders. A single crew will not be allowed to work multiple feeders without case-by-case approval.

- 2. Q: Is the contractor responsible for any permits on this job?**

A: Permitting is not expected on this project. However, if any permit is needed that the contractor can obtain by the contractor (ex. SWPP, DOT, road closure, or other) should be included in the contractor’s unit prices. Any permit that can only be obtained by the owner (ex. DOTD Crossing, DOTD Lighting, Rail-Road Crossing, or Army Corps) will be provided by TPCG.

- 3. Q: What are the traffic control requirements? And who is responsible for the traffic control?**

A: Traffic control requirements vary depending on where the work is being performed, when the traffic will be modified, and how the contractor intends to perform the work. Determining where traffic control plans are required, developing the plan and executing the plan is the responsibility of the contractor and shall be included in the unit price.

**4. Q: Will the parish provide a dump site for concrete, spoil, and poles?**

A: The Parish will dispose of retired line materials only, multiple bins located at the 301 Plant Road facility. One for wood poles, a scrap bin for metal, and a trash bin for fiberglass. The contractor will be responsible for moving retired material to the bins. At no time is it allowed that retired material is to be left on the right-of-way, inside substations, or other locations without written approval from the Parish. Aggregate disposal is to be performed by the contractor. The parish has identified there is at least one free dump site in the Houma area (on Hwy 182 going North past Palm Ave.). Sometime the TPCG Landfill accepts concrete. It is the contractor's responsibility to contact Solid Waste and verify acceptance, availability, and cost.

**5. Q: Does the parish have a specific backfill material to be used?**

A: Backfill material should be contractor provided #610 Limestone. The backfill should be tamped to 4 inches below normal grade. The last 4 inches should be pole spoil from the hole mounded around the base to allow for settling.

**6. Q: Is all the material for this project in stock and ready?**

A: adequate materials will be available at the time work order packets are issued. However, the contractor must request materials needed to execute their work plan 1 week prior to picking up the materials. The contractor may request reasonable contingency materials to prevent any delays in work due to unforeseen circumstances. Project delays due to inadequate planning will not constitute a change order.

**7. Q: Does this project require a new bid bond?**

A: The project requires a bid bond listed for this project. TPCG has released all bond form the previous bid.
