The following individuals were recognized and expressed their concerns regarding decreased property value, drainage, and privacy issues: Mr. Gerald Adkins of 109 Brandon Drive and Mr. Jaime Rhodes of 15 Cambridge Circle.

Councilman G. Michel yield to Mr. Kevan Keiser, President of the Houma-Terrebonne Soccer Association and resident of 129 Ziegler Ave, who presented an update on the Southland soccer fields, noting that the Soccer Association met with Public Works Director David Rome, Capital Projects Administrator Jeanne Bray, and Staff Engineer Joan Schexnayder prior to March 2019 to discuss Southland soccer fields; and sharing that a retention pond was suggested

as a possible solution to help with drainage issues. However, the Houma-Terrebonne Soccer Association decided against pursuing the excavation of the retention pond, because they did not want to spend the money to dig the pond. Mr. Keiser stated that he was never told that a permit was required, since they were not adding any pervious concrete or hard surfaces. He continued that both he and his contractor spoke with Mr. Gerald Adkins regarding the construction of the soccer fields and any possible concerns. On June 10<sup>th</sup>, 2020, the Houma-Terrebonne Soccer Association received a Municipal Separate Storm Sewer System (MS4) notice from Planning & Zoning director Chris Pulaski, stating that the Houma-Terrebonne Soccer Association had not submitted a storm water pollution prevention plan or provided the Parish with drainage drawings. The Houma-Terrebonne Soccer Association supplied the Parish with their Stormwater Pollution Prevention Plan (SWPPP), of which the drainage plan and SWPPP were both approved by Terrebonne Parish.

Discussion ensued between Mr. G. Michel and Mr. Keiser regarding Parish approval, drainage, and privacy concerns.

Mr. G. Michel suggested that the public contact Brooke Domangue and Joan Schexnayder of the Engineering Department, if they have any further drainage concerns.

General discussion ensued regarding privacy concerns and the purpose of the MS4 form.

The Chairman declared the motion adopted.

Committee Member J. Navy asked for clarification of whether summer camps or the use of recreational facilities would be allowable during the current Phase 2 of COVID-19 guidelines. He then thanked Mr. Christopher Pulaski and Ms. Angela Guidry for their assistance toward completing the Air Base Park splash park then questioned if the splash park

could be utilized during the current phase.

Upon Committee Member J. Navy's request, Mr. Mike Toups, Parish Manager, shared his understanding that the current guidelines would be in place for another twenty-eight days which would prohibit the use of swimming pools and splash parks until further notice. He then clarified that the individual recreation districts provide summer camps for their areas, not the Recreation Department.

Committee Member J. Navy reported that several recreation districts were interested in providing summer camps but were unsure of their ability to do so within the Phase 2 guidelines.

Committee Member S. Trosclair reported that the Recreation Department was planning to hold four clinics across Terrebonne Parish focused on individual sports such as sprinting or agility training for all age groups in lieu of team sports such as baseball or softball.

Committee Member J. Domangue clarified that summer camps can operate under the Phase 2 guidelines and that some private summer camps are already in operation. She further explained that recreational pools and swim teams are allowed but splash parks and other water parks are not allowed at this time.

Upon Committee Member J. Domangue's questioning, Ms. Kandace Mauldin, Chief Financial Officer, reported that she had begun looking into the Parish's ability to provide summer camps for Parish employees and would report her findings to the Council the following day.

Committee Member J. Domangue shared her support for providing recreational opportunities for the children of Terrebonne Parish, especially for those who have been adhering to the stay-at-home guidelines over the past few months. She then gave a brief review of the protocols followed by some summer camps with regards to individual hygiene and COVID-19 guidelines.

Ms. Mauldin further clarified that funding to assist with summer camps is budgeted and available should the recreation districts wish to provide summer camps for their areas. She continued that the recreation districts would still need to abide by the Phase 2 guidelines and receive the Parish President's approval before providing the summer camps.

Upon Committee Member J. Navy's questioning, Committee Member S. Trosclair clarified that no official announcements from the Recreation Department have been made at this time regarding the hosting of four clinics across the parish, only that the Department has been in contact with the recreation districts regarding potential sites. He then suggested that more information and media promotion regarding the clinics would be provided at a later time.

Upon Committee Member D. Babin's request, Mr. Jules Hebert, Parish Attorney, clarified that he had been contacted by several recreation districts regarding the hosting of summer camps. He then stated that noncontact sports and certain swimming activities were permissible under the Phase 2 guidelines and that the recreation districts can determine whether or not to hold summer camp programs at this time.

The Chairman shared his support of providing recreation during the summer months and reported that swim teams are currently active under the Phase 2 guidelines. He then suggested that the summer camps could be used to teach children social distancing before the beginning of the next school year.

Mr. D. W. Guidry, Sr. moved, seconded by Mr. J. Amedée, "THAT, there being no further business to come before the Public Services Committee, the meeting be adjourned."

The Chairman declared the motion adopted.

Upon Committee Member C. Harding's request, Mr. Christopher Pulaski, Planning and Zoning Director, gave a brief overview of the public use permit process that allows the usage of public property for events such parades held along Main Street or those events held at the Courthouse Square. He clarified that, while the permit itself is free, it does require event insurance which may incur some costs. He then stated that event organizers are encouraged to obtain their public use permits two weeks prior to the event in order to allow for processing and coordination. He then stated that the checklist for obtaining a public use permit was available online at [www.tpcg.org/permits](http://www.tpcg.org/permits).

Upon Committee Member D. W. Guidry, Sr.'s questioning, Ms. Kandace Mauldin, Chief Financial Officer, stated that an Independence Day event had been budgeted for the

year then shared her understanding that the event was likely cancelled. She then stated she would contact the event organizer the following day for an update on the event's status.

Upon Committee Member D. W. Guidry, Sr.'s request, Mr. Pulaski clarified that the Phase 2 guidelines allow outdoor events and activities and that event organizers are responsible for implementing and complying with those guidelines when using public property for an event. He then explained that the procedure for holding an event at the Civic Center, Dumas Auditorium, or Municipal Auditorium differed from the public use permit process in that an application must be completed and reviewed before the facility would be available to hold the event. He added that the recreation districts are responsible for their own permitting process with regards to events as well. He then confirmed that the event organizers for the "Live After 5" events chose not to hold events at this time and Terrebonne Parish, in partnership with the event organizers, supported the decision to not hold the event.

Committee Member J. Navy shared some of his concerns regarding confusion surrounding the need for a permit to hold a protest event. He stated that the permit process would assist those wishing to participate in a protest event by providing additional safety measures or other services, not prevent or prohibit a protest from taking place. He then encouraged the public wishing to hold protest events to inform the Parish by applying for the public use permits to better coordinate security measures for them to hold their protest event safely.

Committee Member D. J. Guidry suggested that some of the recreational events desired by the parish could similarly be held outdoors in compliance with COVID-19 Phase 2 guidelines.

Committee Member C. Harding thanked Administration and the Committee Members for their clarifications then encouraged the public to seek and utilize the services offered by the Parish to its residents.

The Chairman suggested that the Council share the procedures for obtaining a public use permit and other services on social media to provide for better public understanding or a point of contact should the public have any questions.

The Chairman read aloud a letter from Committee Member G. Michel explaining his absence from the evening's proceedings.

Committee Member J. Domangue led a discussion regarding a policy that would allow for a member of the public to report potential misconduct or praise of a Council Member outside of a public forum such as a Council Meeting. She proposed that the Council could include an online option on its website to file a report that would be forwarded to the Council Chairman for review. Committee Member J. Domangue then offered that the reporting policy could prevent some false accusations and provide protection for both Council Members and members of the public should a potential misconduct occur.

Committee Member C. Harding shared his concerns regarding the legitimacy of the potential reports that could be received regarding a Council Member as an elected official and as a member of the general public and the difficulties in addressing those issues in kind.

Committee Member J. Navy shared his concerns regarding potential reports against a Council Member being held responsible for issues outside of the Council Member's control.

Upon Committee Member J. Navy's request, Mr. Julius Hebert, Parish Attorney, advised the Council not set up anything as laws are in place regarding any elected official who conducts malfeasance or gross negligence with the matter being addressed by the District Attorney and the Attorney General. He then stated that potential ethics violations would be addressed through the Louisiana Board of Ethics and ethics laws as well. He further advised that the Council, as holders of political positions, should not have a social media-based reporting system as they could become targets for political attack. Mr. Hebert then suggested that the Council continue to use the public meetings to address issues held by the public and that any operational reports could be filed online at [www.tpcg.org](http://www.tpcg.org) for the respective departments.

Committee Member J. Navy suggested that the Council consider a code of courtesy when dealing with fellow Council Members outside of Council meeting spaces. He then shared his resolve to continue keeping fellow Council Members informed of activities in the districts they represent as he is made aware of them then shared his hope that the other Council Members would do the same for him.

Committee Member C. Harding shared his appreciation for the intent and presentation of the suggested policy then shared his support for discussion to promote respect as the Council Members strive to serve the public.

Committee Member D. W. Guidry, Sr. shared some of his experiences regarding social media and public input and feedback on the Council and its members. He then encouraged the Council to consider any joint efforts or projects in multiple districts as “parish” efforts, not individual district efforts, and share information as applicable for those who may be impacted.

Committee Member D. Babin encouraged the Council to respect Council Members as representatives of their respective district. He then shared his concerns regarding social media opinions and potential difficulties for framing and implementing a policy for reporting as presented.

Committee Member C. Harding encouraged all Terrebonne Parish officials to represent themselves as Terrebonne Parish officials when on official business and shared his support for cooperation toward the goals of Terrebonne Parish.

Upon Committee Member J. Domangue’s questioning, Mr. Hebert clarified that any harassment or illegal activity claims against a Council Member should be reported to law enforcement or the District Attorney, and any disapproval for a Council Member would ultimately be addressed by a vote of the public.

Mr. S. Trosclair moved, seconded by Mr. D. W. Guidry, Sr., “THAT, there being no further business to come before the Policy, Procedure, and Legal Committee, the meeting be adjourned.”
