k19	Combining Traditional Elevation and Restoration with Stormwater Retention or Soil Stabilization Projects	Application												x			
k45	Alma at Westside Drainage improvement project	Application												x			
L33	Westside/Alma Drainage Project – ASCE	Application													x	x	
k4	Bayou Black Pump Station - WSI	Application												x			
C4	North Lost Lake Marsh Creation/Enhancement	Construction			X												
I175	Wind Retrofit -- Southdown Elementary	Construction									X						
J15	Safe House -- Houma Fire Department 2101 East Tunnel Blvd.	Construction										X					
B29	Coastwide Nutria Control Program	Continous		X													
E9	Reduce the Potential for Future Flood Losses through the Terrebonne Parish Flood Hazard Mitigation Program	Continous					X										
F9	Review the existing floodplain ordinance to improve the Parish's "Community Rating System (CRS) rating to reduce the flood insurance premium.	Continous						X									
I139	RL and Severe RL Properties -- Elevation, Acquisition, Mitigation Reconstruction (Parish)	continous									X						
E10	Increase Affordable Housing throughout the Parish	Continuous					X										
F4	Promote Purchase of Flood Insurance	Continuous						X									
F5	Increase Public Awareness of Hazards and Hazard Areas	Continuous						X									
G2	Elevation and Reconstruction-- Residential	Continuous							X								
I17	Drainage Improvement -- Bonanza Pump Station D-27 Tideflex valves on discharge pipes	Design Complete									X						
H12	Cane Break to Ashland Levee -- 3.4 Miles to +8'	Engineering Funded								X							
H23	Upper Dularge East Levee to +10'	Engineering Funded								X							
	Bayou Dularge Ridge Restoration	Engineering Funded															
	Bayou Terrebonne Ridge Restoration	Engineering Funded															
	Increase Atchafalaya Flow to Eastern Terrebonne	Engineering Funded															
C8	Atchafalaya Long Distance Sediment Pipeline	Feasibility Study Completed			X												
k1	Hanson Canal- Chacahoula Pump Station	Funded												x			
k2	Hanson Canal Generators -	Funded												x			
k8	Pump Station Generator - Public Works	Funded												x			
H15	Upper Dularge East Levee -- 5.2 Miles to +8'	Funded								X							
H5	Ashland North -- 1.5 Miles to +8'	Funded								X							
I136	Relocation -- Jean Charles	Funded									X						
	Small Bayou LaPointe Ridge Restoration	Funded															
B20	Terrebonne Bay Marsh Creation - Nourishment	Funding Requested		X													
D8	Ridge Habitat Restoration in Terrebonne Parish	Funding Requested				X											
D9	Barrier Shoreline Restoration in Terrebonne Parish	Funding Requested				X											
I103	Generator -- 100KW for W. Woodlawn Station	Funding Requested									X						
I104	Generator -- 200KW for South Wastewater Treatment Plant	Funding Requested									X						
I110	Generator -- Lift Stations Receiving Effluent from Hospitals, Chabert Medical Center (50 KW)	Funding Requested									X						
I111	Generator -- Lift Stations Receiving Effluent from Hospitals, Terrebonne General Medical Center (50 KW)	Funding Requested									X						
I112	Generator -- Major Lift Stations, Douglas (50 KW)	Funding Requested									X						
I113	Generator -- Major Lift Stations, Highland Drive (150 KW)	Funding Requested									X						
I114	Generator -- Major Lift Stations, Mire (75 KW)	Funding Requested									X						
I115	Generator -- Major Lift Stations, Westside (50 KW)	Funding Requested									X						
I116	Generator -- Major Lift Stations, Westview (100 KW)	Funding Requested									X						
I117	Generator -- Montegut, Pointe Aux Chenes Fire Stations (need 40-50 KW -- \$15,000)	Funding Requested									X						
I118	Generator -- North Terrebonne Treatment Plant	Funding Requested									X

B17	North Lake Boudreaux Basin Freshwater Introduction and Hydrologic Management	Underway		X													
D1	Morganza to the Gulf	Underway				X											
H20	Cane Break to Ashland Levee to +10'	Underway								X							
I1	Blackstart Capacity -- Houma Power Plant	Underway									X						
I162	Wind Retrofit -- Houma PD	Underway									X						
J37	Education regarding flood safety and property valuation	Underway										X					
J6	Communications Tower North Campus/Telemetry/Forced Drainage	Underway										X					
B20	Madison Bay Marsh Creation & Terracing	Withdrawn by Recipient		X													
I123	Generator -- Port Commission Forced Drainage (50 KW)	Withdrawn by Recipient									X						
I181	Wind Retrofit and Elevation -- Schriever Plant (install shutters or impact resistant glass on windows, strengthen doors, elevate pumps)	Withdrawn by Recipient									X						
J12	Wind Retrofit -- Houma Water Treatment Facility	Withdrawn by Recipient										X					
J13	Wind Retrofit -- Schriever Water Treatment Facility	Withdrawn by Recipient										X					
k14	Lake Barre' Living Shoreline Protection Project														x		
k15	Lake Felicity Ridge Restoration Project														x		
k25	H&H Studies on lake shorelines and marsh projects														x		
	Bayou Pointe aux Chenes Ridge Restoration																
	Point Au Fer Island Shoreline Protection																
I2	Communications -- Conversion of SCADA system from Phone to Radio (Airbase Jr., Applied Hydraulics, Ashland North 1, Ashland North 2, Ashland South, Bobtown, Bourg Heights, Central Heights, Clinton St. Package Plant, Dulac, Edgewood, Frank, Grmoco, Green Acres 1, Green Acres 2, Indian Ridge, Jail, James, Lafayette Woods, Mary Hughes, Moffet/Saia, Orange/Marjorie, Patriot Point, Presque Isle 1, Presque Isle 2, Riley, Rounds, Sandcastle, Sarah, Smithridge 1, Smithridge 2, Thunderbird, Village East)										X						
I3	Communications -- Hazard Warning System (Gauges Strategically Placed, N-Star)										X						
I5	Communications for Water Treatment -- 41 Mobiles										X						
I6	Communications Tower (Theriot, LA)										X						
I98	Emergency Preparedness -- Small Power Radio Station for Hazard Alert										X						
L40	911 and First Responder Communications need to be consistently available and interoperable.														x		
J26	Identify mechanisms to protect the Island Road from surge and tidal impacts. This might include engineered solutions to decrease wave impacts and/or erosion control mechanisms along the edges of the road. (Tribal)											X					
LA 4	Fisherman and Seafood Cultivation Loan Program																x
k38	5 New Company vehicles Fored Drainage Levee Maintenance														x		
k41	2 Gradals 4400 xl / Daily maintenance and storm debris cleanup.														x		
k42	1 vacuum truck / culvert cleaning / storm response														x		
k43	1 50ft boom excavator with tree cutter attachment														x		
k50	Remote Weather Stations at Fire Stations throughout Parish														x		
k51	Vehicles for various departments due to obsolesence/age														x		
L23	USAR vehicles for Supply Transport and Evacuation Response														x		
L24	Search and Rescue Equipment														x		

**Cohesion Matirix of Projects nd Plans - 2020**

Source	Project	Status	TP Master Plan (A)	CWPRRA (B)	CIAP (C)	CPRA (D)	TP Long Term Recovery Plan (E)	TP HMP 2005 (F)	TP 1603 DR LOI 2008 (G)	TP Feasibility Study for Levee Enhancement Projects (H)	HMPU 2010 (I)	HMPU 2014 Update (J)	TPCG Vision 2030	HMPU 2018 Update (k)	Projects Proposed in 2020 HMPU (L)	Capital Projects Proposed 2020 (M)	LA SAFE (LA)
A3	Flood Proof Essential Community Facilities (Power Plants, Substations, Hospitals) (3-8)		X														
E1	Implement Capital Improvement Program to Enhance Inner Ring of Tidal Protection/Forced Drainage Levees						X										
F1	Flood Proof Terrebonne Parish EOC, Terrebonne Parish General Medical Center, Chabert Medical Center, The TPCG Generating Station and the 2 Consolidated Waterworks Treatment Plants							X									
F2	Develop Master Drainage Plan							X									
F7	Pursue elevation/acquisition/reconstruction and flood proofing projects and structural solutions to flooding.							X									
F8	Investigate and implement localized interior drainage projects at Lower Bayou Drive, Savanne Road, Ringo Cocke to Hudson Canal, LA 311 at Hollywood Road, Parish Road 15 at Mandalay, and Susie Canal at Ashland South, which are repetitive loss areas, and reduce its flood potential.							X									
G4	Forced Drainage 1-1B Channel Improvement (Maintenance & Dredging)								X								
I10	Drainage Improvement -- Ashland North D-60 Tideflex valves on discharge pipes										X						
I11	Drainage Improvement -- Bayou Grand Caillou (D-9 South the Landfill Road, Widen and Deepen Channel)										X						
I12	Drainage Improvement -- Bayou Grand Caillou (From Oaklawn School to D-9 Pump Station, Widen and Deepen Channel)										X						
I13	Drainage Improvement -- Bayou Lacache Pump Canal (Widen and Deepen Canal from Lacache Estate to Pump Station)										X						
I135	Relocation -- Deadwood										X						
I14	Drainage Improvement -- Bayou Lacarpe (Widen Channel from Tunnel Blvd to pump station and upgrade bar screen cleaner										X						
I15	Drainage Improvement -- Bellaire Drive (Increase Culvert Sizes and Slope Ditches)										X						
I19	Drainage Improvement -- Crochetville Road Storm Water Diversion canal with flap gates										X						
I24	Drainage Improvement -- Evelyn Lateral Between (Subsurface drainage in lateral ditch from Frank street to Perky street)										X						
I29	Drainage Improvement -- Isle of Cuba Transfer (Off-site fuel storage -- gas and diesel)										X						
I31	Drainage Improvement -- Lower Montegut D-2 Tideflex Valves on discharge pipes										X						
I32	Drainage Improvement -- Martin Luther King Blvd (Increase Culvert Size in pump canal under highway in bonanza system)										X						
I34	Drainage Improvement -- Oak Forest Street (Increase in Culvert Sizes and Pump Station)										X						
I38	Drainage Improvement -- Royce Street (Increase culvert size to stop rainfall flooding)										X						
I40	Drainage Improvement -- South Ellendale Estates Lateral (Dig and possible widen lateral from subdivision to Hanson Canal)										X						
I47	Elevation -- Bayou Dularge Tank building and chlorination equipment										X						
I48	Elevation -- Fire Station (raise 2', history of flooding, 75'x75' Slab) (1466 Hwy 665)										X						
I49	Elevation -- Fire Station in Chauvin										X						
I50	Elevation -- Generator for Riley Drive Lift Station										X						
I51	Elevation -- Grand Caillou Tank building										X						
I52	Elevation -- Industrial Blvd from Van Ave to Pump Station										X

I53	Elevation -- Leachate Removal System										X						
I54	Elevation -- Lift Stations with Self Priming Pumps (Bourg Heights, Edgewood, Ashland North, Ashland North II, Ashland South, Woodlawn Ranch, Saia, Prospect, Carriage Cove, Green Acres I, Green Acres II, Lafayette Woods, Lorraine Park, Presque Isle, Presque Isle II, Chabert Medical Center, Service Center, Smithridge I, Smithridge II, South Terrebonne Estates, Riley Drive)										X						
I55	Elevation -- Lift Stations with Submersible Pumps (Bobtown, Dulac, Orange Street, Airbase Jr., Patriot Point, Rounds Road, Applied Hydraulics, Gemoco, Indian Ridge, James Road, Sandcastle, Thunderbird Road)										X						
I56	Elevation - Lower Dulac Tank Building and Chlorination equipment										X						
I57	Elevation -- Montegut Station (100'x75')										X						
I59	Elevation -- Orange Street Wastewater Plant Controls										X						
I60	Elevation -- Pointe-Aux Chenes Pump Station building and electrical pump, regulating valve and meter										X						
I61	Elevation -- Robinson Canal P.S. Building, electrical pump, regulating valve, and meter										X						
I62	Elevation -- Scale										X						
I63	Elevation -- South Terrebonne Pump Station building and pump										X						
I64	Elevation -- Terrebonne General Medical Center Main Plant Electrical Switch Gear, Boilers, and Chillers (\$2,750,000)										X						
I65	Elevation -- Texaco Master Meter Building, regulating valve and meter										X						
I66	Elevation -- West Gibson Tank building and chlorination equipment										X						
I67	Elevation of Local Evacuation Route -- 1 Mile Section of LA 56 in Chauvin, LA (Ward 7 Evacuation Routes)										X						
I68	Elevation of Local Evacuation Route -- 1.5 Mile Section of LA 315 near the Dularge Bridge (Evacuation Route for Bayou Dularge and Crozier, Floods in a strong south wind)										X						
I69	Elevation of Pump Station Roads -- D-19, D-12, and D-5 Pumps										X						
I70	Elevation to ABFE -- D-01-06, 11, 15, 21, 36, 37, 41-62, 65, 69 Gear Drives, Motors, and Controls										X						
I9	Drainage Improvement -- Ann Carroll, Jean Street, Duet Street, and Grace Street (Upgrade Culvert size to drain water from middle of streets)										X						
I99	Floodproof -- Terrebonne Parish General Medical Center, The TPCG Generating Station, and the 2 Consolidated Waterworks Treatment Plants										X						
J27	Work with communities currently residing in flood prone areas, particularly outside of the levee systems, on the identification of flood mitigation and climate adaptation measures to reduce flood risk. (Tribal)											X					
k12	Cypress Grove Culverts and Sluice Gates													x			
k18	Incorporate Regional Stormwater Management project with State Watershed Initiative													x			
k27	1-1A Stormwater Retention Basin													x			
k31	Westside Stormwater Detention Project													x			
k44	Monarc /Hollywood outfall channel / Drainage improvments /													x			
k46	Cat 5 Public Works / Drainage office / North Campus	Partially Funded												x
