## AMENDMENT POLICY

### 1. REASONS FOR THIS AMENDMENT:

It is recognized that casual change of the ordinance would be detrimental to the achievement of stable development. It is public policy, therefore, to amend this ordinance only when one or more of the following conditions prevail:

PLEASE CHECK ONE OR MORE:

ERROR. There is a manifest error in the ordinance.

CHANGE IN CONDITIONS. Changed or changing conditions in a particular area or in the metropolitan area generally make a change in the ordinance necessary and desirable.

INCREASED NEED FOR SITES FOR BUSINESS OR INDUSTRY. Increased or increasing needs for business or industrial sites, in addition to sites that are available, make it necessary and desirable to rezone an area or to extend the boundaries of an existing district.

SUBDIVISION OF LAND. The subdivision or eminent subdivision of open land into urban building sites make reclassification necessary and desirable.

### 2. Please state on a separate sheet why this proposal complies with either one or more of the above checked conditions for rezoning.

## EXHIBITS REQUIRED

1. LEGAL PLAT OF PROPERTY TO BE REZONED: On the required plat, please include:
  - a. Land area to be affected;
  - b. Present zoning classification of area to be affected and zoning classification of abutting districts;
  - c. Public rights-of-way and easements bounding and intersecting the designated area and abutting districts;
  - d. All existing and proposed structures with supporting open facilities;
  - e. The specific ground area to be provided and continuously maintained for the proposed structure or structures.
2. List names and addresses or property owners within three hundred (300') feet of the fronting corners of the property to be rezoned.
3. Legal Description: The legal description of only the property to be rezoned.
4. Market Information: Applicable only if the following conditions are met:
  - a. If the proposed amendment would require rezoning an area from an existing residential district to a freestanding commercial district;
  - b. If the proposed amendment would require more than double the area of an existing district existing totally surrounded by residential districts;
  - c. Finally, if the proposed amendment would enlarge an area of existing commercial district by more than eight (8) areas;

The market information shall include a written description of the market area to be served by the development, the population thereof, the effective demand for the proposed facilities and any other information describing the relationship of the proposed development to the needs of the applicable area.

5. Development Schedule: Indicate a time schedule for the beginning and completion of development planned by the applicant:

---

6. Effect of the Amendment: On a separate sheet, include a report giving the nature, description, and effect of the proposed amendment on surrounding land use and properties.

**Request to Rezone from R-1 (Single-Family Residential) to C-2 (General Commercial)**

---

**2. Reasons For This Amendment**

**Change in Conditions**

Over the years, these properties were used for both residential and commercial. When zoning was incorporated into the Bayou Cane area in 2007, these properties were zoned residential and we, as the current owner, would like to see them zoned as commercial just as the adjacent properties along West Main Street to the north and south of our property.

**Limitations On Proposed Amendments**

The adjacent property at 6610 West Main Street is currently zoned C-3 (Neighborhood Commercial) and the property immediately adjacent at 6650 West Main is currently zoned C-2 (General Commercial) so the proposed rezone is exempt from the minimum size requirements.

**3. Development Schedule**

Commercial/Residential is already existing at 6634 West Main Street and the requested rezone would provide opportunities in the future for 6642 West Main Street.

**4. Market Information**

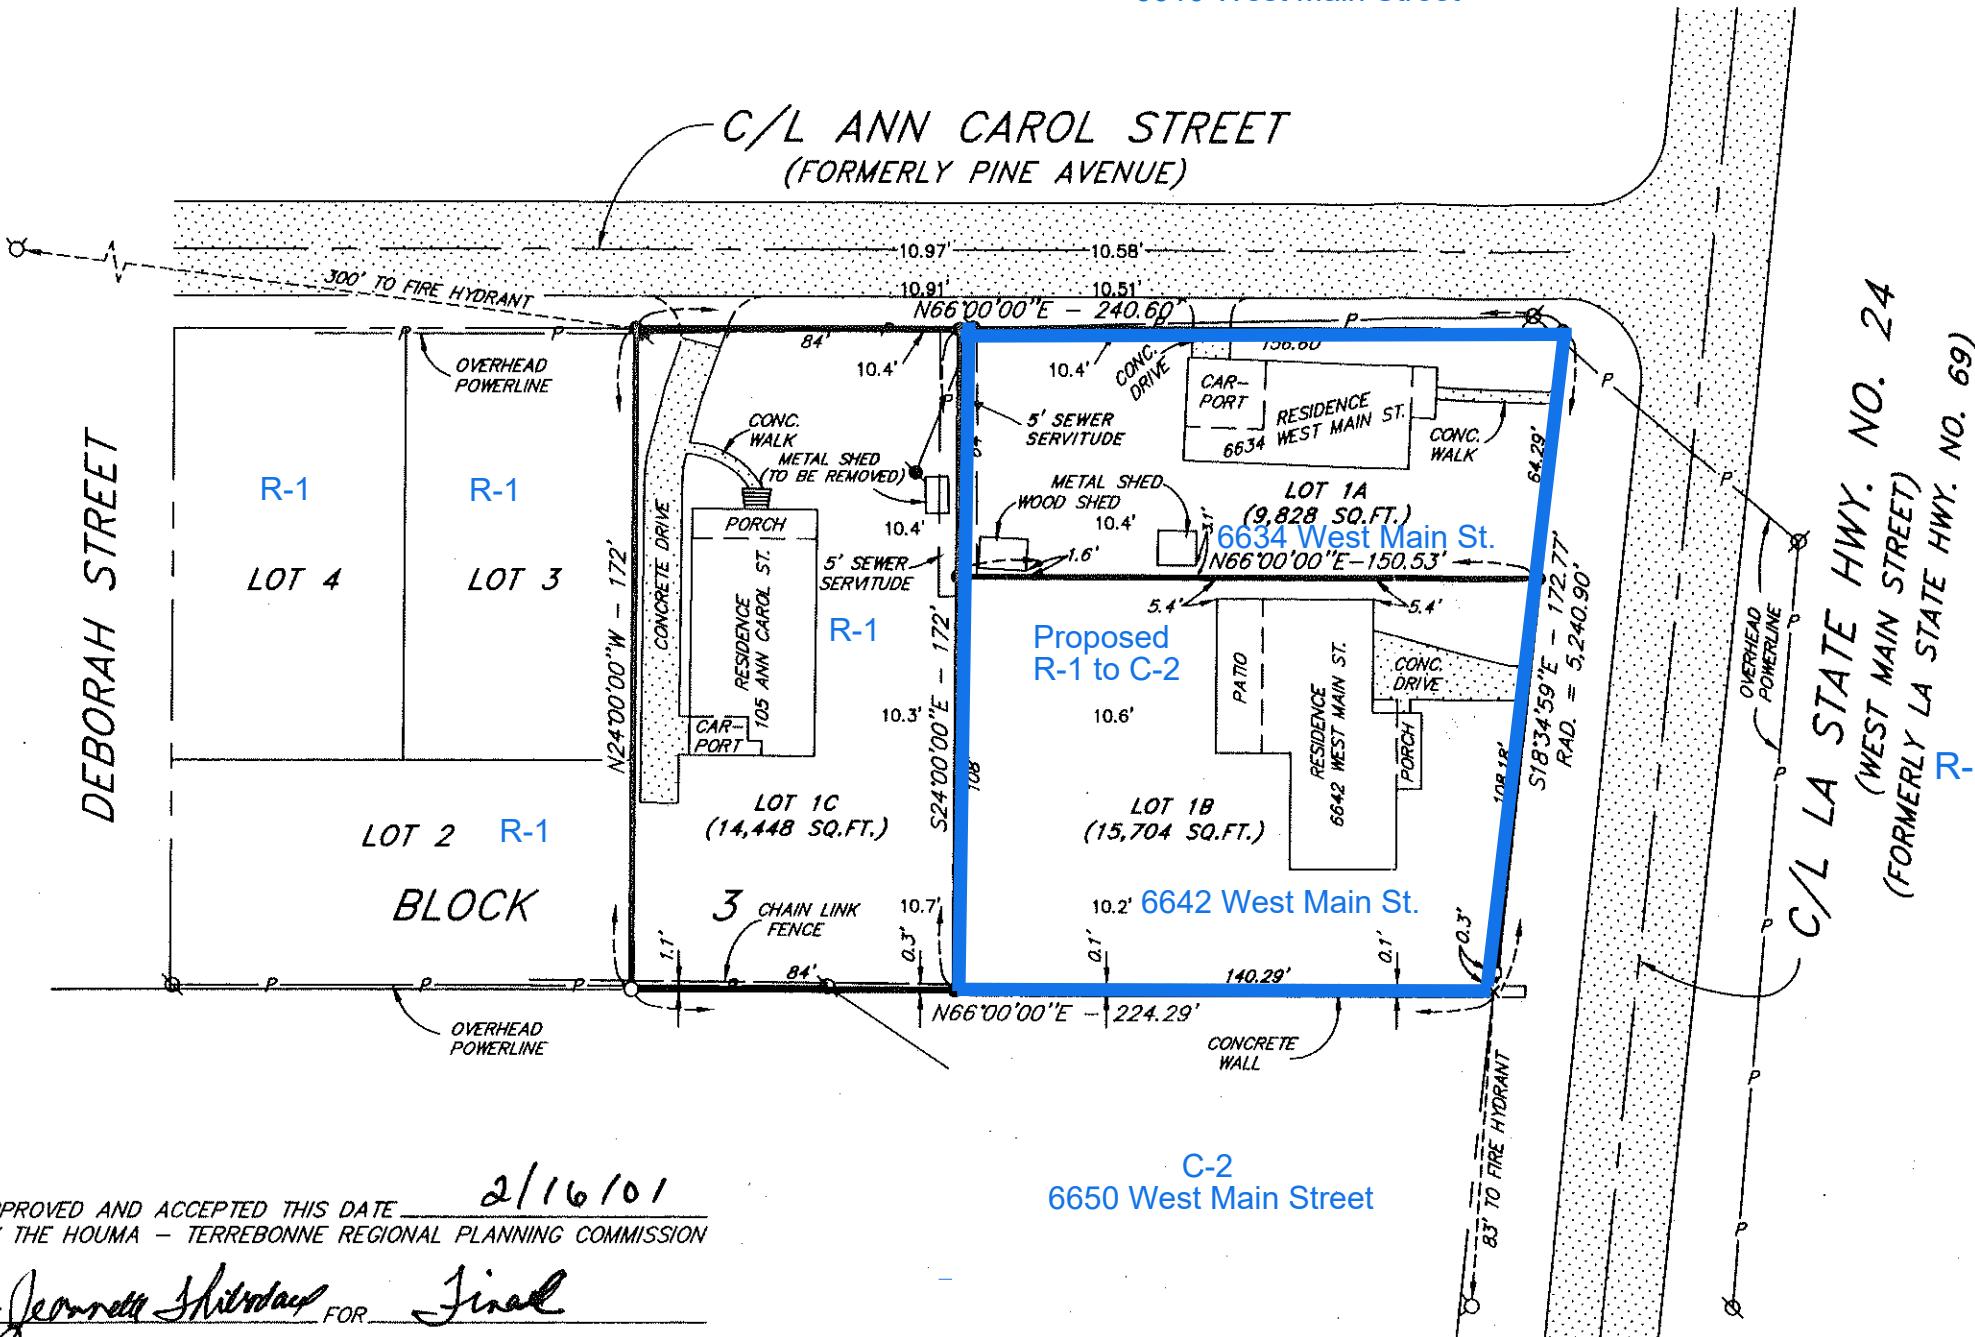

N/A

**5. Effect of Amendment**

Most properties along Main Street & Park Avenue are already zoned commercial and these changes would not alter the aesthetics in the immediate areas.

## ARTICLE III. – DISTRICTS

### Sec. 28-47. – Residential districts

(a) *R-1 Districts: Single-Family Residential Districts.* These districts are composed mainly of areas containing one-family dwellings and open areas where similar residential development seems likely to occur; few two-family and multiple-family dwellings are found in these areas. The district regulations are designed to protect the residential character of the areas by prohibiting all commercial activities, to encourage a suitable neighborhood environment for family life by including among the permitted uses such facilities as schools and churches and to preserve the openness of the areas by requiring certain minimum yard and area standards to be met.

(1) *Permitted uses.* In R-1 Districts only the following uses are permitted:

a. *Uses by right*—The uses listed below are permitted subject to the conditions specified: Accessory use.

Residential/single-family residential.

Nameplate, not exceeding one (1) square foot in area (need not be enclosed within structure).

Recreation—community.

b. *Uses requiring planning approval*—The uses listed below are permitted, upon approval of the location and site plan thereof by the zoning and land

use commission as being appropriate with regard to transportation and access, water supply, waste disposal, fire and police protection and other public facilities, as not causing undue traffic congestion or creating a traffic hazard and as being in harmony with the orderly and appropriate development of the district in which the use is located:

Railroad right-of-way, but not including shops, yards and team tracks (need not be enclosed within structure).

Water storage (need not be enclosed within structure).

c. *Special exception uses* – The uses listed below are subject to the same approval of location and site plan as uses requiring zoning approval; in addition, the uses are declared to possess such characteristics of unique or special form that each specific use shall be considered an individual case and shall be subject to approval of the board of adjustment, in accordance with the provisions of Article IX governing special exceptions:

Armories – military (reserves or national guard)

Nursing homes.

Electric substation (need not be enclosed within structure, but must be enclosed within a brick or perforated brick wall at least eight (8) feet high and adequate to obstruct view and passage of persons or materials, provided that

the substation of other masonry material or a fencing material in lieu of brick may be approved by the zoning commission as being equally satisfactory for meeting enclosure requirements).

Gas regulator (need not be enclosed within structure, but must be enclosed within a brick or perforated brick wall at least eight (8) feet high and adequate to obstruct view and passage of persons or materials, provided that the substation of other masonry material or a fencing material in lieu of brick may be approved by the zoning commission as being equally satisfactory for meeting enclosure requirements).

(b) *R-2 Districts: Two-Family, Residential District, Low-Density.* These districts are composed of areas containing one-family and two-family dwellings; in many instances there is evident a trend toward increased density through conversion of single units to duplexes or apartments. The town house, the single-family home and the double home would characterize the low-density development of this district. The district regulations are designed to protect the residential character of the areas by prohibiting all commercial activities, to encourage a suitable neighborhood environment for family life by including among the permitted uses such facilities as schools and churches, and to prevent crowding of the land by requiring certain minimum yard and area standards to be met.

(1) *Permitted uses.* In R-2 Districts only the following uses are permitted:

a. *Uses by right*—The uses listed below are permitted subject to the conditions specified:

(c) *R-2M Districts: Two-Family, Residential Districts, High-Density.* These districts are composed of areas containing one-family and two-family dwellings; in many instances

there is evident a trend toward increased density through conversion of single units to duplexes and the construction of new common-wall doubles in older neighborhoods. The town house, the single-family home, and the common-wall double would characterize the density development of this district. The district regulations are designed to protect the residential character of the areas by prohibiting all commercial activities, to encourage a suitable neighborhood environment for family life by including among the permitted uses such facilities as schools and churches, [and] to prevent crowding of the land by requiring certain minimum yard and area standards to be met.
